

Our Stories Have Power

Faces & Voices groundbreaking messaging advances the recovery agenda.

You can host a training in your community.

Thousands of people have been trained using the **Our Stories Have Power** recovery messaging tools. They are sharpening their skills as recovery communicators, learning how to tell their story with a purpose.

WHY RECOVERY MESSAGING IS IMPORTANT Faces & Voices of Recovery has found a way to describe and talk about recovery so that people who are NOT part of the recovery community understand what we mean when we use the word “recovery.” One of the important findings from our research is that the general public believes that the word recovery means that someone is trying to stop using alcohol or other drugs. We have found a way to talk about recovery in a clear and credible way that will help move our advocacy agenda forward, making it possible for more people to get the help they need to recover.
